

# Changes to the menu!

The food service team, sat down with the students to find out likes and dislikes on the menu at each location. We received some great feedback and have made a few changes. Chicken patty's were served daily at T.H.S and T.M.S. They were served as an extra option to have if the students did not want one of the other 3 options. This is one of the items we received feed back on and has since been changed to Pizza. The last month of the school year, we introduced pizza bar daily at T.H.S and T.MS, to replace the chicken patty option. The students gave us some great feedback and are really enjoying the change. We have also changed the entr e salad out of the elementary locations a couple days a week and have added Opa! To-go's to the menu. This has been a huge hit in our elementary schools. When an Opa! To-go is an option, at least half of the students pick this as their option for the day.
