

# Kitchen enhancements

This year, we added some equipment to a few locations. Turner Middle School received a reach in refrigerator for the ala carte area, pretzel display, new table for slushy machine that has a cup holder built in and decorations through out the cafeteria. At Turner High School, we added a sandwich slider to the bears den, decorations though out the cafeteria and added an action station. Journey School of choice, we changed the entire line set up. In the past there were a couple of area's for food and beverages, we have changed it and added a new table with cup holders, for beverages and have added decorations through out the cafeteria as well. Other enhancements include, table cloths at all the elementary schools and picture frames of fruit and vegetables to brighten up all of the cafeteria and kitchens.
