

Turner Middle School

May 3, 2021

Dear TMS Families,

We have finally rolled into May and are on the home stretch for this school year. Although students are starting to get a bit antsy with the approach of summer, there is still much to be accomplished during this final month of the school year. Students and staff continue to amaze me as they work hard and work to achieve academic goals.

Next week (May 10-14) we will complete our last round of standardized assessments with Spring MAP Assessments in both math and reading. This is a correction from last week, as I got a week ahead of myself. These assessments will provide us a good gauge of student growth in both subjects as they were also administered in the fall and the winter. These assessments can be administered remotely, and they will be administered to both in-person and remote students.

Looking ahead to some dates as we complete the 2020-21 school year:

- In-Person students will check-in their MacBooks on May 24th and 25th.
- Remote students will check in their MacBooks on May 26th. More details on this process will be shared soon.
- The last day for student attendance is on May 27th.

Construction of our new building is still on track. At the conclusion of this school year, we will pack up our items from the current building to prepare for demolition this summer. At the start of the 2021-22 school year, we will reside in our new building. There will still be construction happening around our site until early 2022. I look forward to August 2021 when we will be able to invite you into the new Turner Middle School.

Thank you for your continued patience and support. The safety of our students and staff is our utmost importance. I am grateful for the opportunity to serve your students and your families. If you have any questions or I can be of any help, please email me at my address below or call the school, (913)288-4000.
